## POLICE JUDGE SALARY FIXED AT $2500 A YEAR

### Board of Aldermen Fail to Act on Measure Last Night

### BAILIFF TO GET $900

**Appropriate $400 For Purchase of Pistols For Members of Police Force—Other Matters Presented**

Common council last night adopted the report of the finance committee providing for a salary of $2,500 a year for the new civil and police justice and a salary of $900 a year for the bailiff of the court and also appropriating $400 for improvements to the old police room which will be used by the police justice.

After the report had been read Councilman Ticer, chairman of the finance committee, offered an amendment to the report making the salary $1,800 a year and making the salary of the bailiff of the court $720 a year. This amendment was defeated by a vote of 10 to 5 and then the report of the finance committee was adopted by the same vote.

Councilman Lawler told council that the committee in fixing upon the salary to be paid had not discussed anything under $2,000 a year and a majority voted for $2,500. Councilman Ticer read figures from Lynchburg and Roanoke and said that at a salary of $1,800 Alexandria would be paying more per capita than these cities for the civil and police justice. The justice, he said, is not prohibited from practicing in other courts. President Burke said he hoped a delegation from council would go before the state legislature and seek to have the law repealed appointing a civil and police justice. He said he could not see why Alexandria should pay more per capita than Lynchburg, one of the richest cities in the state.

Councilman McCaffrey told council that if fees were given Mr. Duvall he would pay the bailiff out of his own pocket.

On motion of Councilman Devers Frederick G. Duvall, the newly elected police justice, was given the floor.

Mr. Duvall said he was elected to the office by the people and would assume the duties of the position January 1, 1922, and that under the provisions of the law other magistrates shall cease their activities at that time. In addition to the criminal work as police justice the justice, he said, shall have jurisdiction in all civil matters up to $300 and that the court shall be entitled to a fee of $1 and a fee of twenty-five cents for garnishments and attachments. There are, he said, between 50 and 60 fees ranging from twenty-five cents to $1.50. In his opinion the civil side of the court would yield the city about $5,000 a year. He said it was his purpose to add to the fines the costs, and he expressed himself in favor of adding costs to all fines in criminal cases and charging a fee for bail.

Mr. Duvall further stated that he had told the finance committee that he would be more than glad to take the office without salary providing the fees were given him from the civil side of court and that he would pay the bailiff and bear all expenses of the court, adding he would amply be paid if this were done.

Those voting for Mr. Ticer's amendment were: Messrs Ticer, Reed, Sullivan, Baggett and Burke and those against it were Messrs. McCaffrey, Matter, Ruben, Wattles, Desmond, Drury, Ballenger, Lawler, Fletcher and Devers.

Councilman Ruben asked if the police justice would be under bond and Councilman Lawler assured him that the finance committee would see that proper bond was given before he assumes office.

In the board of aldermen, however, that body failed to act on the salary of the police justice and will have to come up again. Aldermen Marbury Robinson and Bachellor voted for it and Alderman Summers against it and Aldermen Rammel and Anderson did not vote.

An ordinance repealing a certain section of the building laws so that hereafter persons seeking application to erect garages, sheds and other small buildings will make application to the city engineer and not city council was adopted.

Resolution appropriating $2,000 for a macadam roadway on Pitt between Prince and Duke streets was referred to the committee on streets and finance.

Ordinances providing for the laying of sidewalks in certain sections of the city was referred to the street committee.

Resolution recommending George W. Bontz, Sr., for the position of state game warden for the city was adopted and same will be sent by the clerk to the state authorities. Councilman Baggett explained that the state pays a salary of $60 a month and the city does not have to pay anything.

Resolution of Alderman Summers that two members of the board of aldermen and three members of the common council be appointed to go to Richmond next month and urge the state legislature to repeal the law providing for a civil and police justice was referred.

Councilman Ruben stated that the chamber of commerce would have a representative at the state legislature to look after certain laws that would be a benefit to the city of Alexandria.

Councilman Lawler urged that an appropriation be made for the purchase of pistols for the members of the police force and Councilman Fletcher presented a resolution appropriating $400 or as much thereof as may be necessary for the purpose of 18 pistols and that bids be obtained by the committee on public property was adopted.

A resolution that the aldermen adjourn out of respect to the memory of Alderman John T. Harrison and that both branches of council attend the funeral in a body was adopted by both boards. President Burke appointed Councilman J. M. Reed a member of the committee on police.

## *WASHINGTON DAY BY DAY*

*(From our Special Correspondent.)*

Washington, Dec. 14.—Since the death of the late Representative Hal D. Flood, of Virginia, politicians in the Old Dominion are recalling a report which has now come to the surface with reference to the reasons which actuated Mr. Flood in accepting the Chairmanship of the Democratic Congressional Committee in the last campaign and in declining to become a candidate for Governor of Virginia at the same time. According to the friends who stood closest to Mr. Flood, it was his desire to head the campaign committee for the Democrats believing that if a Democratic House were chosen he would be in line for Speaker of the lower branch of our national legislature. Indeed had Mr. Flood lived and the House regained for the Democrats in the campaign for control a year hence, there is little doubt that he would have been the most formidable candidate for presiding officer of the House. His death, however, has changed all the calculations.

Col. Thomas W. Miller, Alien Property Custodian, told the members of the Appropriations Committee of the House yesterday that the property administered under the Trading with the Enemy Act consists of some thirty thousand trusts scattered from the Philippine Islands Hawaii to the coast of New England, and embraces industrial plants, such as chemical and woolen mills, minority interests in railroads, steamship lines, banks, land and cattle companies, salmon factories and gold, silver and other precious mines of metals and miscellaneous industrial plants. In addition to these, there are thousands of patents and copyrights seized by the Alien Property Custodian.

Col. Miller is unalterably opposed to the unconditional return of such property to its owners.

"The records of the State Department show" he said, "approximately $415,000,000 in American claims against Germany and German nationals for acts before this country declared war and for property and debts in Germany owned by Americans. The largest number of claims arises as a result of the sinking of the Lusitania. Our allies reserve the right to retain and liquidate the property belonging to enemy nationals under the Treaty of Versailles."

It begins to look now as if the conference on the limitation of armaments and Far Eastern questions will be brought to a close by the end of the present month. This, at least, is the view of those who are known to be keeping in close touch with the developments from day to day and who have consulted the views and desires of the foreign delegates present in Washington at this time While the deliberations of the conference may be carried on after this period, such work will be performed by committees of experts and others attached to the various delegations, but the big men who have been working upon the various accomplishments already announced will be back in their own countries by the middle of next January, it is confidently expected.

Despite the fact that Charles W. Morse New York financier and promoter is being held under $50,000 bond on a charge of conspiracy and embezzlement by the United States government, those who have followed the case of the New York banker in Washington do not believe that the government, through the U. S. Shipping Board, will ever be able to make out a case against Morse. The people of Alexandria will recall that Morse started the Virginia Shipbuilding Corporation, which concern turned out a number of some of the very best vessels that were later on taken under supervision and operated by the U. S. Shipping Board. It is the contention of Mr. Morse and other members of this concern that the government has never made any settlement in payment for these ships and that Uncle Sam is indebted to the concern in the sum of many millions. One thing is certain, Morse was not afraid to come back to America to face his accusers and the unbiased judgment of Washington is that the government will never make out a case against him.

## REFUSE TO NAME CO-RECEIVER FOR VA.-SHIP

### James R. Caton Named as Additional Counsel For Receiver

### HEARING HELD TODAY

**Judge Groner Said He Saw No Good Reason For Designating Additional Receiver**

In the United States Court for the Eastern district of Virginia this afternoon, Judge D. Lawrence Groner refused the application of certain attorneys representing creditors asking for the appointment of a co-receiver for the Virginia Shipbuilding Corporation. The present receiver, Joseph L. Crupper will, therefore remain as appointed.

Judge Groner after reviewing the case announced that he saw no real good reason at this time for increasing the number of receivers.

There is he said reason why some person qualified should not advise the receiver as to what should be done.

Judge Groner then announced from the bench that if the Alexandria Attorneys got together and designated some one to act as additional counsel for the present counsel for the receiver he would name him.

A short recess was taken and a few minutes afterward the attorneys returned and announced that they had agreed upon Attorney James R. Caton whereupon the court announced the confirmation of his appointment.

The court also entered an order directing that the receiver, Mr. Crupper submit a report to the court within the next thirty days advising what is best to be done regarding the affairs of the company.

Present at the proceedings was Fletcher Dobys, of the Emergency Fleet Corporation. He, however, took no part in the proceedings.

There were about twenty-five attorneys present at the hearing.

The present counsel for the receiver is composed of T. R. Keith, of Fairfax; H. B. Lee of New York, and Edward O. W. Wollcott, of Norfolk, Va.

## FIRE DESTROYS TWO STORES DAMAGE $4500

### Frame Structures Make A Big Blaze and Attract Large Crowd

### ORIGIN UNKNOWN

**One Store Occupied by Dick Bates and Paint Shop by I. S. Groves—Owned by Dr. G. T. Klipstein**

The two two-story frame store buildings known as 127 and 129 South Fairfax street, were destroyed by fire of undetermined origin shortly before 10 o'clock last night. Total damage to the buildings and stocks of these two places probably will be about $4500 covered by insurance.

Building 127 South Fairfax street was occupied as a grocery store by Dock Bates and 129, south of it, was occupied by I. S. Groves, as a paint shop and the second floor was occupied by E. M. Knight a sign painter. The buildings were owned by Dr. George T. Klipstein and the damage to the buildings will it is estimated be about $2,000 for the two, practically covered by insurance.

Mr. Bates estimates his loss to his stock of groceries at $750 and Mr. Groves' loss of paints, oils, ladders, scaffolding and other fixtures will be in the neighborhood of $1,800 and Mr. Knight's loss will be several hundred dollars.

As far as can be determined the fire is thought by some to have originated in the pant shop of Mr. Groves or may have started on the second floor.

The fire made a big blaze and attracted a big crowd. The firemen worked till 11:30 o'clock before completely subduing the blaze.

The roof and interior of the residence of Mrs. Emma Rodd, 123 South Fairfax stret was damaged and the rear part of the residence of G. Lee Pulley, 131 South Fairfax street, also was damaged by the fire.

## WOMEN ATTACK KANSAS MINERS MINES CLOSED

### Army of Gentle Sex Battles With Clubs, Bricks and Tongues

### VICTORS OVER MEN

**To Renew Fight Again Today to Force Complete Shut-Down of Mines.**

Girard, Kans. Dec. 14.—Woman stood alone last night in the Southern Kansas coal fields—triumphant

She had left her kitchen and her babies for war. In one day she closed six coal mines in this district. Husbands, fathers, sweethearts, and brothers stood by and cheered her on.

More than 2,000 women, shrieking, singing with hair floating behind them as they raced into battle attacked coal miners in this district who would not join the rump strike in support of Alexander Howat, deposed and jailed president of the Kansas miners.

In a fury of attack that dwarfed any other riot ever experienced in this vicinity, the women swooped down upon miners going to work. They grabbed miners in the pits and threw them out. Between 500 and 600 miners were driven from six mines.

Some miners obeyed the shrieked injunctions to "get out of there you traitors!" Others fought back, but were no match for the whirling feminine dervishes who battled with tongues, clubs, bricks, food from dinner pails—anything they could get their hands on.

The miners at work are supporters of President John L. Lewis, of the United Mine Workers of America, and against Alexander Howat. The women are wives and members of families of Howat miners. For months the Howat faction has been trying to defeat the Lewis faction in tieing up the mines.

Where they failed, the women succeeded in a few hours.

Starting as the men were going to work, the women descended in groups of 500 and 600. Some were singing the "Internationale," some were so angry that they cried.

The majority of the women were foreigners, shawled, some of them in wooden shoes. Others were Americans and many a pair of high heels were dug into miner shins.

Miners who resisted were clawed and pummeled—and fled.

"We'll chase every Lewis traitor off the job in Southern Kansas," their leaders shouted, and three divisions, carrying American flags, bounded over fields and ditches, across country to other mines.

Sheriff Gould and his deputies were powerless before the warring women. Gould said no extra deputies would be sworn in to stem the feminine tide.

"You can't get men to do that sort of thing," he said.

Hundreds of men strikers spurred the women on in their rioting, but took no part.

## *Trims Millions From Pay Rolls*

Chicago, Dec. 14.—Additional millions were trimmed from railway payrolls in a decision handed down by the railroad labor board today, providing for a radical change in overtime payment for 585,000 unskilled employees.

The decision, which abolishes overtime until ten hours have been worked, affects all maintenenance of way employees, shop and roundhouse laborers, and unskilled laborers of bridge and repair gangs. The war-time national agreements provided overtime after eight hours.

This decision disposes of the major part of rules question, and makes it possible to take up wage consideration soon.

The board made no estimate of the amount the decision will cut from the pay envelopes, other than to say that it would amount to millions "in normal times."

The basic eight-hour law is unchanged. Time and a half for Sunday work is eliminated, and employees taken from regular jobs and transported in camp cars drawn only straight time for eight hours per day.

Carriers by the new rule are entitled to arrange the time of the working day by mutual agreement with employees. This will eliminate much of the overtime.

## *Burglars Loot Store*

## *Address Women's Club*

The Virginia state president of the Business and Professional Women's Clubs, Mrs. J. K. Bowman, addressed the local unit last night at the December meeting, held at the chamber of commerce, and preceded by a supper. The meeting was presided over by Miss Lucy M. Graves, the president, and opened with a prayer by Miss Mary Monroe. Routine business was transacted during the progress of the supper; the resignation of Miss Anna Lander was accepted, and Mrs. Clara Goldsworthy was elected to membership. Several letters were read from other organizations, one from the Y. M. C. A. Ladies Auxiliary asking the endorsement of a petition to city school board urging a course in domestic science and arts be added to the school curriculum. A resolution was passed endorsing this movement, and instructing the corresponding secretary to write the school board urging the installation of this course as soon as practicable.

An invitation was extended the club members to attend the educational meeting to be held at the chamber of commerce tomorrow night, and a committee of four appointed to represent the body.

Reports of the various chairmen of committees for the Christmas party were received. This party will be given to the children of the city on Friday, December 23, from 6 to 8 p. m., in the Elks' Home. Each member of the club is taxed to ensure a generous gift of candy, nuts and fruit for each child, also a personal present. A number of friends of the members have also kindly contributed towards this worthy object.

The entertainment committee had provided two diversions for the evenings program, a dance by Miss Mary Lee Spilman and a recitation by Miss Virginia Wilkins, both of which were greatly enjoyed.

Owing to a late train Mrs. Bowman did not arrive until the close of the business session, and immediately following the program of entertainment she gave a talk of most intense interest to all present. She told of the formation of the Virginia Federation in Richmond in June, 1919, and the National Federation in St. Louis in July, 1919, giving some of the details of the organization work. Mrs. Bowman told that a census of women showed that 80 per cent. of the working women of the country are self supporting and 65 per cent. have dependents. Some of the most prominent women of the country are allied with this club, and among the national officers are Mrs. Lena Lake Forrest, president, of Detroit, Mich., one of the most successful insurance agents in the country. Miss Lota E. Kelly, vice president, of Raton, New Mexico, owner and manager of a chain of department stores in her state, the first woman to represent a chamber of commerce at a national convention. (Atlantic City last summer.)

Miss Ruth Rich, recording secretary, of Jacksonville, Florida, a well known newspaper woman, and editor of "The Southern Clubwoman." Miss Lena Madison Phillips, executive secretary, now of New York, but formerly of Kentucky, lawyer, first honor graduate, man or woman, of the law tucky. Was director for the department of the East, United War Work campaign, and a former national Y. W. C. A. secretary.

A rising vote of thanks was given Mrs. Bowman for her wonderful talk, after which the meeting adjourned to meet the second Tuesday in January.

## MORE SHIPS ON NAVAL RATIO NOW EXPECTED

### Japan Probably Will Retain Mutsu In Adjustment of Agreement

### TO INCREASE TOTAL

**Japanese and Chinese Fail to Reach Agreement in Shantung Dispute —Other Questions Delayed**

Washington, Dec. 14.—Progress was made today by the leaders of the conference in adjusting the details of Japanese acceptance of the 5-5-3 naval ratio. The understanding was that tonnage of all three of the big naval powers is likely to be increased somewhat in order to maintain the Hughes ration while permitting Japan to keep the Mutsu.

In the other end of the Conference —Far Eastrn affairs—a sudden chill was thrown over the hopes that sprang up Sunday and yesterday that an agreement was in sight between the Chinese and Japanese over Shantung on the basis of the Chinese buying from the Japanese the half interest the Japanese claim in the railway that runs across the province. The hopes have not expired, but they flickered last night.

The accomplished work of the Conference, the four-power Pacific treaty, was signed in the morning by the plenipotentiaries, but President Harding did not send it to the Senate at once as was believed yesterday to be his intention. It is understood that while Secretary Hughes inclined to the view that it should be sent to the Senate at once, Senator Lodge, who must lead the fight for its ratification, favored a delay. The measure may go to the Senate before the end of the week, however.

Meanwhile the irreconcilables under Senator Borah are lining up for hard fighting and the Democrats evidently are not going to be in too great a hurry to help Mr. Harding. The expectation is general that no real trouble will be had when the time comes to take a vote, but for the present the Administration spokesman probably will have to deal with the irreconcilables, while the Democrats, who suffered at the later's hands in the League fight, look on with considerable complacency. It is probable that former President Wilson will be consulted after a while by some of the Democrats.

The naval question was before Mr. Balfour, Baron Kato and Secretary Hughes again this afternoon. They met in conference in Mr. Hughes' office. Previously Mr. Hughes had with him American naval experts, and he sent for them again after Mr. Balfour and Admiral Kato had gone. The Secretary maintained silence as to what transpired in these sessions, but the understanding was general that means were sought to ratify the Japanese desire to keep the Mutsu.

On the question of ratio Mr. Hughes has indicated time and again that he is adaman. But if the Japanese were allowed to keep the Mutsu and the United States were allowed to build a couple of Hoods, the 5-5-3 ratio would remain intact. And that, it seems likely last night, is what may come out of the frequent gatherings of the leaders.

It also is understood that in these gatherings the question of fortifications in the Pacific is being given to the French and Italian navies. The real problem, it appears as to the latter, is not the total of captail ship tonnage to be allowed them for neither nation is in position to build a fleet of great battleships, but the French call for a large allowance in submarines. It is taken for granted that the British objections will be supported to a considerable extent. but the leaders must be careful of French sensibilities.

The sudden chill in Shantung negotiations was one of the most perplexing developments of the Conference. Until Sunday the belief prevailed among the people best informed on Far Eastern affairs that the Japanese would not yield farther than in their offer to return the lease hold, upon condition that they were allowed one-half ownership of the railroad. Equally it was believed that the American delegation would not feel itself in position to put heavy pressure upon the Japanese and that other delegations were too tied up to do so. On Sunday came the change in the wind.

The Chinese became very cheerful. Their good cheer increased yesterday, although others still were a little skeptical. Many of them believed that all was over but completion of deails. The Japanese had gone ahead with negotiations based upon the Chinese offer to buy the interest in the railroad claimed by the former. The Chinese, willing to pay any price within reason, felt that only the price was open for for settlement.

## EDITORIAL COMMENT

### *Christianity Triumphant*

It is not too much to say that the successful close of the Disarmament Conference is a veritable triumph of Christianity. Called by a Christian nation, the majority of the conferees likewise of that faith, the issues involved were esesentially those of Christian civilization.

The effect upon the world, therefore, will be to strengthen immeasurably the religion of that half of it whose symbol is the Cross. There are a thousand Christian missionaries in Japan; there are nearly four thousand in China. There are other thousands in other countries. These will find their work henceforth made easier and their converts innumerably increased. It is the spirit of the teachings of Christ alone that will finally reconcile the races with their age-old differences and their age-worn creeds.

### *Rounded With a Sleep*

Children aged four years need twelve hours' sleep a day; five to seven, eleven to twelve hours; eight to eleven, ten to eleven hours; twelve to fourteen, nine to ten hours. From this to middle age, about eight hours. Then the amount decreases till old age, when, strange to say, five or six hours seem to be ample. The mind itself never sleeps. It is the material part of us that requires rest. This gives rise to some interesting thoughts. For instance, old people are more spirit and less animal; therefore the less need for sleep. When we are all spirit will we need sleep at all? Again, what is sleep, anyway? Scientists have been unable to explain it to this day. Also what are dreams, a phenomenon of sleep?

### *Church and Labor*

Back in Boston the preachers have been laboring with their hands and the laborers have been preaching in the pulpits. This, in an endeavor to get together on common ground. Roger Babson, who deals in the coldest and most abstract of figures, for a living, says we need more religion among business men and in daily business. Arthur Nash, a Cincinnati clothing merchant, says "the solution of all our problems in industrial and international life is the philosophy of Jesus Christ." This was said at a gathering in Faneuil Hall recently, met to discuss the industrial problem. The meeting was composed of preachers, labor leaders, and business men. Maude Foley, of the Garment Makers' Union, said she thought the Church was the best agency for bringing capital and labor together. Martin Casey, of the Electrotypers' Union, said he thought the Golden Rule would iron out most of the difficulties in the industrial world. Cardinal O'Connell, in his pastoral, counsels both employer and employee to follow the ideals of Christ; the one to pay a living wage and the other to give a full day's work; and each to be just and charitable.

Altogether, there is an awakening in the whole country, of which the Boston meeting is merely a symptom, that bodes good for industrial peace.

### *Man and Brute*

What may be termed the first civilized gorilla, has recently died in Madison Square Garden Tower, New York. As is well-known, the gorilla is one of the most untamable of animals. But this one, brought up from infancy in the family of a British Army officer, seemed to possess traits almost human. He learned to wash himself and brush and comb his hair. He learned neat table manners; to put things back in their places; to fill his tumbler of water from a faucet, turning it on and off; and to do many things that require intelligence as well as imitation. Once his mistress refused to let him sit in her lap, a habit of which he was very fond, having on a light, summer dress. He laid on the floor a minute, crying, and then got up, looked around, discovered a newspaper, picked it up, spread it over the lap of his mistress and climbed into the coveted place. Finally, he had to be disposed of, and was sold to Americans. Most human trait of all, he died of a broken heart on being separated from his loved ones!

The gradations from mineral life to plant life are infinite; from plant life to animal life likewise so numerous that it is difficult to tell where one begins and the other leaves off. Between animal life and human life, however, there is an unbridgeable chasm. "Cogito, ergo sum"—said Descartes; "I think, therefore I am!" The human being thinks and reasons! The animal only feels. This is a difference in kind, not degree. The reasoning faculty is God-like; man was created in the image of his Maker, and therefore partakes of life eternal. The brute returns to dust.

In Memoriam:

Whereas, it has pleased our Heavenly Father, in his infinite wisdom, to remove from amongst us our fellow member, John T. Harrison, who died December 12, 1921, and

Whereas, the life that made our association with him pleasant is at an end, and the gates of death are closed upon our further intercourse; and,

Whereas, by his many ennobling traits of character he had endeared himself to us, and in his career has left an example to his friends and fellow members; and,

Whereas, those manly qualifications which he possessed influence us in a sincere desire to testify to an appreciation of his life amongst us; be it therefore

Resolved, that in the death of John T. Harrison, who was a member of the Board of Aldermen, we sincerely deplore the loss of one to whom we had become affectionately attached by long association and by relations which were never marred by the least occurrence of an unfriendly act.

Resolved, that a copy of these resolutions ge presented to the relatives of the deceased, and that the same be attached to and become a part of the minutes of this Board and be published in the Alexandria Gazette, and be it further

Resolved, that as a mark of further respect the Board adjourned till the 10th day of January, 1922, and also attend the funeral in a body. The Board then adjourned.

### *75 YEARS IN PRISON FACING MAIL BANDIT*

Phoenix, Ariz., Dec 12.—Roy Gardner, twice-convicted mail robber, pleaded guilty today in the United States District Court to a charge of attempting to rob a mail car here and assaulting Herman F. Inderlied, a mail clerk. Judge William H. Sawtell immediately sentenced Gardner to 25 years in the Federal Penitentiary at Leavenworth, Kan.

It is understood the prison authorities will be requested to have an operation preformed on Gardner's skull to remove the pressure which the defense claims caused Gardner to commit his crimes.

Gardner now faces a total of 75 years' imprisonment for sentences imposed upon him for robbing the mails.

## SPORTS

SEASON OPENS WITH VICTORY

Alexandria High School's Basketeers started their season off in great style last night when they defeated the team representing the Old Dominion Boat Club by the score of 25 to 21. The teams proved to be good matches and neither team was allowed to loaf for the smallest part of a second throughout the entire game. At the beginning it seemed as if High School had the Boat Club boys outclassed and the first quarter ended with them in the lead. In the second quarter, however, the Boat Club boys picked up a bit and when the half ended were even with the High School, the score being 13-all. With the beginning of the last half the High School boys went into the lead and stayed there, just one jump ahead until the final whistle sounded.

With their clean, new uniforms, the High School team looked as if it was made up of a bunch of "cake-eaters," but things are not always as they seem to be, as the Old Dominioners found out, to their sorrow. Both teams showed up exceptionally well for the beginning of the season. Captain Dreifus and Pettit, for the High School, did most of the shooting, while Beeton made the majority of the points for the Boat Club team.

The lineup of the teams is as follows: High School, Dyson and Pohl, guards, Pettit, center; Midkiff and Captain Dreifus, forwards. Boat Club, Friedlander and Shuman, guards; Oliver, center, and Beeton and Crilly, forwards. At the beginning of the fourth quarter Allen Roberts was substituted for Oliver at center.

HAS BETTER JOB NOW, SAYS BURNS

Miner Declares Heavy Work Is No Trouble For Him Since Tanlac Restored His Health

"Tanlac has made me feel so good I've taken a harder job than I had before, and can now do the heavy work much easier than I used to do the light," said Joseph J. Burns, a miner, residing at 340 Deckers Court, Scranton, Penn.

"Last Christmas eve I got hurt in an automobile accident, had to stay in the hospital for two weeks and then went home in such bad shape I could hardly get around. I had indigestion, my back hurt, I couldn't sleep and one of my hips hurt so bad every step was agony to me and I just had to limp around. I had no appetite, and in a little while I lost about twenty pounds in weight and felt so tired, sluggish and sleepy all the time my work was almost too much for me. I had blinding headaches, pains in my arms, and often suffered so bad I had to stay off the job for days at a time.

"Well, I just kept getting worse until a friend of mine in Providence put me on to Tanlac, and the way it has helped me is simply astonishing. I've gained several pounds in weight, am eating like a hard working man ought to eat, and feel like a new man in every way. All my aches and pains have disappeared, and I'm feeling so strong and well I believe I could hold my own with a prize fighter. I never dreamed that any medicine could do what Tanlac has done for me, and I'll praise it the balance of my life."

Tanlac is sold in Alexandria by Edgar Warfield, Jr., and by leading druggists everywhere.

CLOGGED BLOOD WITHERS THE BODY

Workers Sick and Weak From Exertion Take Gude's Pepto-Mangan

Men and women who toil, either physically or mentally, use up energy. When they overwork they use up more energy, and sometimes the blood gets in a run-down condition. Without rest the blood cannot get back to normal, so that it becomes clogged with waste matter from over-exertion.

The clogged blood virtually withers the body. The strained looks on pale faces, the thin, bloodless arms, the sunken cheeks and necks, the dead-tired feeling, are the results of stale blood depriving the system of life-giving oxygen.

Workers go to the drug store and get Gude's Pepto-Mangan when they feel weak and run down. They take it in either the liquid or the tablet form. That maks the blood rich and red and drives out the poisons. Life-giving oxygen, carried by the little red cells, renews the strength and builds up the entire system. Look for the name "Gude's Pepto-Mangan" on the package. Advertisement.

Special Notice: Dr. Frederick Jocobson says that phosphates are just as essential to any woman who tires easily, is nervous or irritable, worn out or looks haggard and pale, to make a strong, robust, vigorous, healthful body, as they are to make corn, wheat or any vegetable plant grow strong and healthy. The lack of Phosphate is the cause of all enemic conditions and the administration of 5-grain Argo-Phosphate Tablets will increase the strength and endurance 500 per cent in a few weeks time in many instances.

*American Legion Auxiliary to Give Veterans Xmas Cheer*

The American Legion Auxiliary of Virginia wishes to give to each disabled veteran in hospitals in Virginia some gift for Christmas. There are many more disabled veterans than the Auxiliary can possibly care for without assistance from sympathetic friends. To date there are 387 disabled veterans of the war in hospitals in this state.

Any individual or organization who wishes to donate funds with which to make possible a little Christmas cheer for our boys will please send their donations in funds to Mrs. C. M. Shepperson the local President of the American Legion Auxiliary.

We have only 38 active units in Virginia, and 387 men to care for to date, and more hospitals in this state are yet to be heard from.

May there be many who desire the privilege of communicating a little Christmas cheer to those for whom the war is not yet over. CARRY ON.

# Michelbach Announces An *AMAZING REDUCTION on the Pathe Phonograph!*

## Buy Yours Now and Save--Pay After Christmas

**Right in time for the Christmas Gift Buyer comes the important announcement from Pathe Headquarters to slice prices on all the famous Pathephone Models. These new lower-than-ever prices are going to start a big run on our Christmas stock, so we suggest that you order your machine at once—don't delay another day or you'll be disappointed. Remember YOU MAY PAY NEXT YEAR.**

### 6 ADVANTAGES IN A JEWELED Pathé

1 **The Full Clear Tone** of each individually toned instrument is produced by the clear and pure tone chamber and the famous Pathe Sapphire Ball. The music flows from the records; isn't scratched off.

2 **No Needles to Change,** on a jewelled Pathe. The Sapphire Ball never wears out.

3 **Plays All Makes of Records,** and plays them better.

4 **Records Do Not Wear Out.** Every Pathe record is guaranteed to play 1,000 times.

5 **Always Ready to Play** as soon as you slip on a record.

6 **The Pathe Controlla** enables you to play any record loudly or softly with the same Sapphire Ball.

Yet the Pathe costs no more than an ordinary phonograph.

AND the Pathe has ALL the features of all other talking machines.

### THE Pathé

In the excellence of tone, in the beauty of cabinet design, in the finish of the woods, and in the care of assembling, is the most perfect phonograph that human skill and genius can produce.

The Pathe Sapphire Ball which does away with old-fashioned steel needles glides smoothly around the record like a drop of water. This round, polished jewel fits exactly into every record groove and accurately reproduces every shading of the selection. The music flows off; isn't scratched off. No needles to change; no needles to buy; always ready to play. No wear on the records; every Pathe record is guaranteed to play 1,000 times.

### THE ONE GREATEST THING

you can buy in a phonograph.

You're going to buy a phonograph. All right—which?

Well, what do you want in a phonograph anyway? Pleasure, first. TONE—always! But mainly the pleasure you get out of it.

Right? All right—then the Pathe is your phonograph.

Even if it were no better in tone than all the others—the elimination of the changing of needles would be enough.

If its tone were merely as good as all the others—the fact that the record does not wear out would be enough.

But it's plain as daylight that a ball of sapphire, jewel-polished under the microscope and fitting perfectly into the half-circle of the sound-groove along which it smoothly, beautifully glides, is bound to produce a TONE of purer quality than any you have ever known before.

### THE FAMOUS ARTISTS

of Europe and America are making records for Pathe, because they know that only on Pathe records are they sure that every shading and every expression of the selections as they interpret them, are faithfully reproduced. You can hear the best songs and opera arias, the popular marches and symphonies on Pathe records.

Keep up with Broadway. Pathe has the latest hits first and best; the new songs that Broadway is whistling; the popular one-step, jazz and fox trot. The best orchestration of the new songs, and the most unusual novelties are always found on Pathe records.

And remember—every Pathe record is guaranteed to play 1,000 times.

**Hear the Pathé That will decide!**

**Pathé Costs No More** than the ordinary phonograph
